NEIL LEACH

Professor in Architecture at FIU
Founder of DigitalFUTURES

Neil Leach is a British architect and theorist who directs the Doctor of Design program at Florida International University. He has taught at leading institutions including the Architectural Association, Harvard, Columbia, Cornell, IaaC and SCI-Arc. Co-founder of DigitalFUTURES, he has also collaborated with NASA on developing a 3D-printing system for lunar and Martian habitats. Author of more than 50 books, his latest publication is *Architecture in the Age of Artificial Intelligence* (2nd ed., Bloomsbury, 2025). His forthcoming titles include *The AI Design Revolution* (Routledge), *The Death of the Architect* (Bloomsbury) and *Architectural Education in the Age of AI* (Bloomsbury), co-authored with Areti Markopoulou.
