Results of the workshop will be published from MIC-HUB

Promoters: Prof. Andrea Arcidiacono (Polimi), Prof. Carolina Pacchi (Polimi), Federico Parolotto (MIC-HUB), Delia Valastro (MIC-HUB), Gaia Sgaramella (MIC-HUB), with Fondazione mobilità in città, many other instructors and guest speakers.

Transport Planning: From Theory To Practice

CALL FOR APPLICATION

Are you a student interested in how research can generate safe and socially equitable development?

Join us! Transport planning: from theory to practice is an intensive 2 weeks transdisciplinary active experience which will allow you to explore both the theoretical and the practical strategies necessary to operate a transformative research process.

This year the workshop will support the ongoing research in the Corvetto area of Milan. In particular, participants will observe the spatial distribution of traffic accidents, involving marginalised micro-mobility users, to understand the socio-economic and demographic settings of accident distribution, defining a path of social segregation in micro-mobility accidents.

The workshop will challenge the paradigm underlying the unequal distribution of mobility capability to address mobility injustice in planning, design, and policy-making, which seek road safety without addressing structural issues.

Participants will engage in intense action research to uncover local experiences that will be reformulated in final project proposals to produce epistemological sets of knowledge to pass on to the local community as a tool for self-development.

WORK PROGRAM

This is a 2 weeks workshop. Daily participation, from 9:30am until 6pm is required. A detailed program will be provided to selected participants.

HOW TO APPLY

To be selected, send an updated CV and a letter of intent as soon as possible and no later than May 20th, 2024 to worksho@mic-hub.com. Applicants will be notified the results of the selection process no later than May 24th, 2024. The official languages of the workshop are both Italian and English.

The workshop will be conducted in English and is available for students of the following courses:

- L21 Urbanistica: Città Ambiente Paesaggio
- LM4 Architettura - Ambiente Costruito - Interni - Architecture - Built Environment - Interiors
- LM4 Architettura e DiseGno Urbano - Architecture and Urban Design
- LM4 Sustainable Architecture and Landscape Design - Architettura Sostenibile e Progetto del Paesaggio
- LM48 Urban Planning and Policy Design - Pianificazione Urbana e Politiche Territoriali
